GRI Products reserves the right to, and does from time to time, make changes and improvements in design and dimensions. The photographs and line drawings of the products in this catalogue are representational only.

At GRI we will meet all your requirements in the sanitary & janitorial area.

Products include stainless steel urinals, troughs, grates, basins & cisterns. All made from quality 304 or 316 grade satin stainless steel. Excellent for use in factories, council amenities, pre-schools, schools and for any commercial and industrial needs.

Specify the size, outlet positions and tap holes required, and we'll meet all your requirements.
